

Omveda's Winter Spa Rescue Warm Honey Body Ritual

THE LAVISH, NEW OmVeda Honey Body Ritual answers the three essentials to maintaining a healthy and lustrous skin during winter ~ exfoliation, circulation and hydration, and, a simultaneous soothing scalp massage adds to the experience.

This body pampering OmVeda journey calls on the power of Honey to help the skin retain moisture and elasticity during the drying winter months, rejuvenating winter-worn skin, to have it glowing from head to toe.

The warming body ritual incorporates exfoliation with the OmVeda Honey Withania Body Polish, an Ayurvedic combination of honey, aloe, figs, winter cherry and walnut to cleanse and buff away dead surface cells, a super hydrating, warming Honey Wrap laden with Sweet Flag, Aloe and Almond that infuses goodness deep down, softening the skin and improving tone and texture and a gentle massage using the OmVeda Honey Body Lotion, a rich and hydrating lotion to finish this traditional body ritual. Recommended take home of Body Gel, Honey Withania Body Polish and Honey Body Lotion battle the drying effects of winter between treatments.
